Do not purchase your new smart controller until receiving authorization as rebates are not guaranteed.

**This program is sponsored by the Plainview Water District
 For more information or questions, please call the
 Plainview Water District at (516) 931-6469
 or visit our website at www.plainviewwater.org**

Qualifying Installations:

- Participant must be a Plainview Water District (District) customer and the property owner of the installation site.
- The applicant must have an account in good standing with the District. The participant must have a fully functioning irrigation system and be in compliance with Plainview Water District backflow regulations.
- The participant must retain the old replaced timer/controller for a District field technician to verify during our site visit.
- Rebates are available on a first-come, first-served basis to eligible participants while limited funding remains.
- Site must have an efficient, well maintained irrigation system compatible with a smart controller. (e.g., no line breaks, pressure issues, broken spray heads, etc.)
- Controller purchases must be on the Environmental Protection Agency (EPA) list of WaterSense labeled controllers which can be found at www.epa.gov/WaterSense/products/controltech.html
- Controller must be installed and programmed per manufacturer's directions. Initial settings are fine tuned to eliminate wet and dry zones.
- Smart controllers must be installed with a rain sensor unless the controller model installed includes an onsite weather component.

Conditions:

- The participant agrees to leave the "smart controller" in place for a minimum of three years, in working order, provided that ownership of the property does not change.
- The participant agrees to allow the District to inspect the smart controller system within the first three years after its installation.
- The District will chargeback the rebate amount to the customer's service account if: i) upon inspection, the smart controller is not installed at the District serviced address or, ii) upon inspection, if the smart controller is not installed per manufacturer's specifications or, iii) if applicable, customer discontinues payment of the signaling fee during the first three years after installation date.
- The participant agrees to participate in a customer satisfaction poll at the conclusion of the program.
- The participant has read and agrees to the conditions set forth in the following disclaimer:
Neither the District nor its contractors or agents makes any representation or warranty regarding the irrigation controller utilized in this Smart Controller Rebate Program. By participating in the rebate program, you waive and release the District and its contractors and agents from all claims and causes of action arising out of the purchase, installation or use of the smart controller purchased in connection with the Smart Controller Rebate Program. Any claim you have based upon defect or failure of the performance of the smart controller purchased by you in conjunction with this rebate program should be pursued with the controller's manufacturer.

Application Instructions:

- Complete all sections of the smart irrigation controller rebate application.
- If you agree with the terms and conditions of the Rebate Program, sign and date this application.
- Submit the completed application to the address below. Applications will be processed in the order of receipt. Do not purchase your new smart controller until you receive authorization to proceed. Rebate funds are not reserved until you receive authorization.
- Customers have 60 days, from the date of District approval to purchase and install the new irrigation control system.
- The smart controller device must be on the Environmental Protection Agency (EPA) list of WaterSense labeled controllers and must meet the Irrigation Association's definition of a smart controller stating that it will, "monitor and use information about environmental conditions for a specific location and landscape – information such as soil moisture, rain, wind, the plant's evaporation and transpiration (I/TO) rates, and in some cases, plant type and more – that enables the device to decide when to water, and when not to, providing exactly the right amount of water to maintain lush, healthy growing conditions."
- The current smart controller rebate is limited to \$100 per residential account. If the smart controller purchased is less than \$100, the rebate will be limited to that of the purchase price. Mail the original sales/purchase receipt to the District at the address below. The original receipt must show make, model, and costs of the smart controller as well as indication of the method of payment.
- Retain a copy of the sales receipt for your records. The rebate program is not responsible for materials lost by mail.
- Upon successful installation, it is incumbent upon the applicant to schedule a site inspection verification visit by calling (516) 931-6469. This step is mandatory prior to receiving your rebate. All requests for inspection must be made no later than September 15, 2018. This step is required in order to complete the rebate application and process payment.
- You will receive a rebate check within 90 days after the installation has been verified.
